EDUCATION

St. Francis Institute of Technology <i>Bachelor of Technology in Electronics & Telecommunication Engineering; CGPA: 6.2</i>	Mumbai, India <i>Expected May 2026</i>
Nirmala Memorial Foundation College of Commerce and Science <i>Higher Secondary Certificate (HSC); Percentage: 58%</i>	Mumbai, India <i>2022</i>
St. Lawrence High School <i>Secondary School Certificate (SSC); Percentage: 75.40%</i>	Mumbai, India <i>2020</i>

EXPERIENCE

Data Analytics Intern <i>BharatSkillz (Startup)</i>	Aug 2025 – Oct 2025 <i>Mumbai, India</i>
<ul style="list-style-type: none">Engineered automated ETL pipelines using SQL and Excel to process 10K+ training records, reducing manual data preparation time by 60% and ensuring analysis-ready datasets for cross-functional teamsDeveloped interactive Power BI dashboards tracking KPIs across 15+ metrics including learner progress, training outcomes, and KYC compliance; implemented drill-down capabilities enabling stakeholders to identify bottlenecks 40% faster	
Technical Intern <i>GET Tutorials</i>	Jun 2025 – Jul 2025 <i>Mumbai, India</i>
<ul style="list-style-type: none">Built production-ready chatbot prototype leveraging Python NLP libraries and Django backend, processing 500+ test queries with 85% accuracy and demonstrating scalable architecture for user interaction workflowsCreated Power BI analytics dashboards to visualize user interaction patterns; established Git version control and documentation standards adopted across the development team	
Data Analytics Virtual Intern <i>Deloitte</i>	May 2025 <i>Remote</i>
<ul style="list-style-type: none">Executed end-to-end data analytics case studies involving data cleaning, transformation, and visualization; delivered executive-ready dashboards with actionable insights using Power BI and Excel	

PROJECTS

Banking Analytics Dashboard <i>Power BI, SQL, Excel</i>	2025
<ul style="list-style-type: none">Designed comprehensive banking intelligence dashboard analyzing 50K+ client records with KYC compliance tracking, credit risk segmentation, and demographic analysis across 12 interactive visualizationsImplemented cross-filtering and drill-down navigation enabling instant identification of high-risk customer cohorts (debt-to-income ratio >40%, credit score <600) for proactive risk management	
Netflix Content Analytics Platform <i>Python, Power BI, SQL, Web Scraping</i>	2025
<ul style="list-style-type: none">Built end-to-end analytics pipeline: automated web scraping of 8K+ titles (2008-2021), data normalization with pandas, and SQL database integration for efficient querying and analysisAnalyzed global content trends identifying top-producing countries, genre distributions, and director activity patterns with interactive filtering by country/genre/time dimensions	

TECHNICAL SKILLS

Languages: Python, SQL, HTML, CSS
Data & Analytics: Power BI, Advanced Excel (pivot tables, macros, VBA), SQL (querying, joins, CTEs), pandas, Matplotlib
ERP & Data Systems: SAP (fundamentals), Master Data Management concepts
Developer Tools: Git, GitHub, VS Code, Jupyter Notebook, Django (basic)
Cloud & Learning: AWS (in progress), RINEX AI Program (IIT collaboration)
Core Competencies: Data Pipeline Engineering, Dashboard Development, Exploratory Data Analysis, Statistical Analysis, Data Governance, Root Cause Analysis, Stakeholder Communication, ETL Automation, Data Visualization, Prompt Engineering
