PROFILE SUMMARY

Data Analytics graduate with experience validating, standardizing, cleaning, and analysing large datasets to improve data quality, governance, reporting accuracy, and operational efficiency. Built SQL and Python workflows that improved data accuracy to 99%, reduced data-preparation effort by 60%, and delivered KPI-driven dashboards supporting business reporting and decision-making. Skilled in Data Management, Data Governance, Data Quality, Data Validation, Data Cleansing, Reporting, Process Improvement, Documentation, SQL, Python, and Power BI, with strong attention to detail and commitment to maintaining high data integrity throughout the data lifecycle.

TECHNICAL SKILLS

Data Management: Data Governance, Data Validation, Data Quality Assurance, Data Cleansing, Data Integrity, Data Standardization

Analytics & Reporting: SQL, Python (Pandas, NumPy), Power BI (DAX, Data Modelling), Advanced Excel

Data Operations: KPI Reporting, Dashboard Development, ETL Workflows, Process Improvement, Reporting Automation

Tools: Git, GitHub, Jupyter Notebook, VS Code

EXPERIENCE

Business Analytics Intern Aug – Oct 2025
BharatSkillz (Startup) Mumbai, India

- Built SQL and Python workflows that validated, cleaned, and processed 10K+ business records, improving data accuracy to 99% and reducing preparation effort by 60%.
- Developed Power BI dashboards monitoring 15+ KPIs while ensuring reporting consistency, data integrity, and accurate business performance tracking.

Technical Intern Jun – Jul 2025
GET Tutorials Mumbai, India

- Analysed 500+ chatbot interaction records to identify user behaviour trends, performance gaps, and improvement opportunities through structured data analysis.
- Built Power BI dashboards and maintained structured reporting datasets, improving data consistency and supporting informed business decisions.

Data Analytics Virtual Intern May 2025
Deloitte Remote

- Performed data validation, quality checks, reporting, and dashboard development while following structured documentation and governance standards for client deliverables.

PROJECTS

Banking Analytics Dashboard | Power BI, SQL, DAX 2025

- Cleaned, validated, and analysed 50K+ customer records before developing DAX-driven reporting models that improved data consistency and business reporting accuracy.
- Developed standardized dashboards supporting KPI monitoring, data quality analysis, and executive reporting.

Financial Operations Analytics | Python, Scikit-learn, Prophet, Statsmodels, ML 2026 – Ongoing

- Building automated Python workflows for financial datasets involving data cleaning, validation, forecasting, and reporting to improve analytical accuracy.

Healthcare Readmission Prediction | Python, Scikit-learn, Pandas 2026 – Ongoing

- Processed and validated 100K+ healthcare records through data cleansing, quality assurance, feature engineering, and standardization prior to predictive modelling.
- Produced 12+ standardized visualizations and documented analytical findings to support reporting consistency and business decision-making.

EDUCATION

St. Francis Institute of Technology (SFIT), Mumbai 2026

B.Tech in Electronics & Telecommunication Engineering | CGPA: 6.54

HSC – Nirmala Memorial Foundation College, Mumbai | 58% 2022

SSC – St. Lawrence High School, Mumbai | 75.40% 2020

ADDITIONAL INFORMATION

Certifications: RINEX AI Programme (IIT Collaboration), AWS Cloud Practitioner (In Progress)

Languages: English, Hindi, Marathi, Kannada

Core Competencies: Data Management, Data Governance, Data Quality, Data Validation, Process Improvement

Continuous Learning: SAP ERP, Master Data Management (MDM), Data Governance, SOX Compliance

Fundamentals, Google Apps Script, Enterprise Data Quality Frameworks
